Tips for Using Mason Shuttle On-Demand

* Mason Shuttle On-Demand is a shared ride service so you may be sharing the ride with others who are going to your stop or nearby stops.

* The pick-up and drop-off stops available for the On-Demand Shuttle are in the Transloc app and on the On-Demand website.

* When you request the shuttle, you will be put into a queue to be picked up; the length of the wait for your pick-up is dependent on the demand for the shuttle at the time.

* You may experience a delay in receiving a pick-up notification during high volume times as the TransLoc app algorithm assesses which vehicle can pick you up.

* You must be at the stop when the shuttle arrives; they can’t wait for you.

* When you see the On-Demand Shuttle, be sure to signal to the driver that you are being picked up.

* The Shuttle On-Demand cannot be scheduled in advance.

* There are multiple shuttles on the On-Demand route for most of the day. After 11pm, there is one bus on the route.

* It is recommended that you not cancel the shuttle and then immediately rebook it; this just puts you further down the list for pick-up.

* The addresses for the stops are determined by GPS and are not always accurate; please use the pin to see where the stop is located, not the address.
